

# Backyard Bug Journal

WHAT INSECTS ARE LIVING IN YOUR BACKYARD?

There are lots of exciting things you can find if you go on a bug hunt in your backyard! We love that as the seasons change, you can always find something new! Follow the instructions on the right to build your own DIY backyard bug journal to track your discoveries!

Did you know? A bee's wings beat 190 times a second, that's 11,400 times a minute. What bugs and cool facts will you discover?

## INSTRUCTIONS:

1. Print off a copy of this page. It includes both the cover and one page insert.
2. Print as many additional insert pages (found on the second PDF page) as you'd like for your journal.
3. Next, cut along each dotted line and then fold the page in half along the solid line. Some trimming may be necessary.
4. Assemble your journal by placing your pages inside the cover. Staple or stitch along the solid line to complete your journal.
5. Begin your backyard search, fill in your journal notes, and use the extra blank interior pages for fun additional sketching and journaling!

Draw a picture of your favorite bug below:
