FOR IMMEDIATE RELEASE

Date: March 16, 2020

Macomb Park District – COVID-19 Response

The Macomb Park District is committed to protecting the health and safety of our staff and community. We are working with our community partners to make the most informed decisions possible.

In accordance with the recent Center for Disease Control and Prevention (CDC) and State of Illinois guidelines that have been released and respecting the health and well-being of everyone associated with the Park District, we will be taking the following precautions effective immediately:

- All Group programming classes, activities and events hosted by the Macomb Park District are suspended until further notice. Park District staff will be working to reach out to those affected in the coming days. They will also be available to answer phone calls and email inquiries regarding these changes.
- All facility rentals will be at the discretion of the renter. If you are renting from the Macomb Park District, you may choose to maintain your rental, reschedule your rental at a later date at no charge, or cancel and receive a credit on your account for another future rental. Please note, gatherings of 50 people or more will be canceled.
- The Park District Main Office is restricted to park staff only until further notice. Please call to schedule an onsite appointment if necessary.
- While our parks will remain open, restroom facilities will remain closed until further notice. Patrons are encouraged to consider social distancing and good hygiene while using our parks and trails.

While we are disappointed to have to cancel programming and restrict facility use temporarily, it is our hope that the early response to COVID-19 will help to limit its impact and allow us to get back to full program levels sooner. We stand committed to do whatever we can to support the health and wellness of our community and these short-term closures will accomplish that. District leadership will be continually monitoring the news as information develops daily for updated procedures that may need to be take.
