

# Color Wheel of the Seasons

CREATE A PHENOLOGY WHEEL NATURE JOURNAL

Let's make a color or phenology wheel of the seasons! Phenology is the study of cyclic and seasonal natural phenomena, especially in relation to climate and plant and animal life. What are you observing in nature where you live? What do you notice first?

## INSTRUCTIONS:

Use paint, colored pencils, or crayons to capture each month as it passes. Through simple marks of color, drawings, or written notes, this wheel helps record what you notice in nature. Happy exploring and tag us at [@lakeviewnaturearea](https://www.instagram.com/lakeviewnaturearea) with your monthly observations!
